

WINTER DISCHARGE PERMIT

Issued by - City of Hartford, SD ~ 528-6187

Permit # _____

Date: _____

Ordinance #430, Chapter 8.03 Sewer Provisions, Section 8.0304G. **NO** person(s) shall make a connection of any source(s) of groundwater to a building sewer or building drain, which in turn is connected directly or indirectly to a public sanitary sewer.

The exception is that upon approval of this winter discharge permit from the Superintendent or Finance Office the sub-surface drainage from sump pumps may be discharged into the sanitary sewers during the winter months of November 1st through March 31st for a fee of \$50.00.

* Before discharging into the city's sewer system, an inspection must be done by the Public Works Dept.

* By March 31, 2020, you must contact city hall for an inspection appointment to ensure no connections are made to the city's sewer system. All inspections must be done by April 30, 2020.

If anyone is not in compliance with the above regulations a \$200 fine will be issued.

I agree to the above information. I will not start discharging into the sanitary sewer system until approved by the public works dept. I will schedule an appointment with the city by March 31, 2020 to ensure no connections are made to the city's sewer system.
