Subject: 2024 Business Update

January 29, 2024

Greetings,

ACS would like to a moment to thank all of you that I was able to work for in 2023. Thank you for entrusting your projects with my care. It was an honor working for you and I hope that you will give me another chance again this coming year.

Now I would like to take a moment to bring you up to date on how 2023 went and the growth that Antonsen Construction Services, LLC had this past year. This was our first year at full-time and Lord gave us a great year. We made one change to our company last year and that was that we added Revit LT (3D drawing) as an option for our customers. This will now allow us to design/draw buildings and create 3D renderings for our customers. We look forward to using this kind of drawing feature for our customers.

We got to work with some great new customers in 2023. The Drafting/Design part of our business has had a nice increase with the addition of new contractors to the customer base, which is growing nicely each year. The business keeps getting better every year we keep moving forward.

ACS had growth in many areas that helped the company to do better in 2023. Our family is looking forward to what 2024 holds!

Antonsen Construction Services, LLC. Did some of the following projects for 2023:

**Drafting/Design:** We worked with some contractors, and home owners in the Sioux Falls area to design some awesome projects! These projects included but were not limited to: 4-plexes, new housing, and some addition/remodel jobs.

**Handyman/Painting:** We had the honor of working for the Tri-Valley school system in 2023, again. We also got to work for a local chiropractic clinic in Sioux Falls and realtors on their projects.

Thank you for taking the time to read this letter. May you and your company have a great and profitable 2024!

Thank you, Have a Great Day!!
